

Direction of River Flow

http://www.ccge.org/resources/learning_centre/classroom_activities/river_flow_direction.asp

Materials

- US map with rivers
- Colored pencils
- Compass or transparency with directions marked

Procedure

- Use color key:
North flowing = red
East flowing = yellow
South flowing = blue
West flowing = green
- On the US map mark segments of rivers with the color that corresponds to the general direction of flow.
- Fill in data table

General Direction of River Flow	Number of Segments
North	
East	
South	
West
